MODULARITY IN A MONO A SMALL, BUT SMART SPACE FO

The powerful Böning ship automation system connects to almost any system and sensory device on board. With the integrated ECDIS software the skipper gets an overall solution at a central point.

LITHIC AND LIGHT DESIGN FOR MANAGING THE ENTIRE SHIP.

Irreplaceable external devices like VHF, autopilot, weather fax or any else can be concealed under the console. Control of all systems is performed by touch screen or customized operation panels.
